

Infrastructure

Leadership Summit 2006

Strategic Planning Small Group Discussion Summary

Group 1:

- The issue
 - o Internet
 - o Combine accounts (b-school, Artsci, etc)
- Who needs to be involved:
 - o All technology sources (Restech)
 - o Administrators (Dean Carroll)
 - o A planning group of passionate students
 - o Anyone responsible for technology; heads of networks
- Intended outcomes
 - o Centralized internet/technology resources
 - o ONE log-in
- Doing Something:
 - o Gather all connections together
 - o Speak to administrators
 - o Heads of computing form on government body
 - Give them power to make uniform judgments
- What we can do:
 - o Gain awareness
- Collaboration
 - o See 'Intended outcomes'
 - o Group of students. Make committee
- Measure success
 - o Student feedback
 - o No new student complaints

- The issue
 - o Facilities
 - Dining
 - o Student input on current constructions
- Who
 - o Bon Appetit
 - o Town Hall/Administrators/Architect
- Desired outcome:
 - o Get student voices heard
 - o Other thoughts
 - Internet forum for students to gain awareness
 - W.U.—Wikipedia with forum section
 - o Get healthier food
 - o More variety

- Expand food facilities (Wohl and on campus)
- Collaboration
 - StudLife
 - Student Task Force
- Measure success
 - When students feel aware/informed
 - When there's a general understanding of construction on campus
